Clock Responsibilities

The entire CREW is responsible for ALL timing situations

- SJ keeps time on field – pre-snap routine
- BJ keeps play clock – pre-snap routine
- Communicate between plays to referee to start on snap or ready for play (usually deep officials)
- Know timeouts remaining for both teams
- Write down status on longer delays (injuries, etc.)
- Know when additional rules apply at end of half!
- Remember 5/5 axiom

Under 2:00 Remaining in Half

Situations when game clock stops and will restart on snap:

1. Team A ball carrier ruled out of bounds
2. Team A backward fumble is out of bounds
3. Team A backward pass is out of bounds (not intentional to conserve time)

Under 1:00 Remaining in Half

10-second runoff situations:

1. Fouls immediately causing clock to stop

- False start (includes illegal shifts before offense was set)
- Delay of game
- Incomplete illegal forward pass
- Intentional grounding
- Personal foul
- Fouls to conserve time or intent to stop the clock

2. Helmet coming off not involving a foul

3. Player injuries

*** Runoff only applies if any of the above only involve one team AND clock stopped for no other reason*

Under 0:03 Remaining in Half

If game clock was stopped after previous play with less than 3 seconds AND restarted on ready for play...

...the offense cannot run any more than 1 more play before time expires.

10-Second Runoff – Scenario #1

Fouling team has no timeouts

AND obvious that opposing team wants runoff

Referee

- Make announcement
- Inform QB that clock starts on ready
- Allow offense to line up quickly
- Clear umpire and wind the clock

Umpire

- Stands over ball until cleared by referee

10-Second Runoff – Scenario #2

Fouling team has timeouts

AND obvious that opposing team wants runoff

Sideline officials of fouling team

- Ask head coach if they want to use timeout
- Communicate decision to referee

Referee

- Make announcement
- Inform QB that clock starts on ready
- Allow offense to line up quickly
- Clear umpire and wind the clock

Umpire

- Stands over ball until cleared by referee

10-Second Runoff – Scenario #3

Fouling team has no timeouts

BUT not obvious that opposing team wants runoff

Sideline officials of opposing team

- Ask head coach if they want runoff
- Communicate decision to referee

Referee

- Make announcement. *If runoff elected...*
 - Inform QB that clock starts on ready
 - Allow offense to line up quickly
 - Clear umpire and wind the clock

Umpire

- If runoff elected, stands over ball until cleared by referee

10-Second Runoff – Scenario #4

Fouling team has timeouts

BUT not obvious that opposing team wants runoff

Sideline officials of opposing team

- Ask head coach if they want runoff
- Communicate decision to referee

Sideline officials of fouling team

- Ask head coach if they want to use timeout if runoff is elected
- Communicate decision to referee

Referee

- Make announcement. *If runoff elected...*
 - Inform QB that clock starts on ready
 - Allow offense to line up quickly
 - Clear umpire and wind the clock

Umpire

- If runoff elected, stands over ball until cleared by referee

Play Clock Scenarios

	No Option for Runoff		Option for Runoff	
	Offense	Defense	Offense	Defense
Player Injury	25	40	25	40
Helmet Off Not Due to Foul	25	40	25	25
Foul Causing Clock to Stop	25	25	25	25

In scenarios involving more than one of the above situations and at least one requires a 40-second play clock, the play clock will be set to 40 seconds.
